The Unknown Diver

Hello Divers,

Summer is in full swing and many of us will enjoy the great weather and warm water. While I have exploited this space in the past to offer my humble views on diving and occasionally the antics of some of my colleagues this posting will be serious.

Several weeks ago a large charter boat exploded while being fueled. Tragically a young man was killed. I attended an event on this same boat last summer. A friend of mine keeps his boat at the marina where the accident occurred. I can attest to the professionalism of both the charter captain and the marina staff. Before the boat left the dock on the event I attended, the captain performed a thorough safety briefing and briefed us again before we were allowed to swim off the boat at the mooring ball. The staff at the marina were equally competent and most professional in the performance of their duties. Reports from witnesses and authorities indicate the staff at the gas dock and the boat captain followed all safety procedures. This truly was a freak accident. If something like this can happen to well trained professionals we all need to be cognizant of potential risk involved in boating. To be clear, I am not advocating any legislation of avoiding water sports, rather the need for all of us to be careful while on the water.

That being said, enjoy a great, safe Summer of 2008, and I hope to see you on the bottom.

Never dive over your head

Travel

St. Lawrence River

We'll be going to the "river" six times this summer. Three times will be strictly shore diving and the other trips will be with Abucs Scuba in Brockville, Canada. The shore diving will be bare bones. We will provide a dive guide that will get you to the dive sites and explain/brief the dive. You will be responsible for all diving necessities, transportation, meals and lodging.

The trips with Abucs Scuba will provide two boat dives on Saturday, two boat dives on Sunday, lunch on Saturday and lodging Saturday night.

You will be responsible for providing all of your own dive equipment including weights and two tanks. We will get air fills in Canada for Sunday. Of course, if your dive locker is a little lacking, Blue Ocean Divers can provide any equipment you are missing or a complete weekend package.

Don't miss out on experiencing the best fresh water dive destination in the USA! Come and dive the St. Lawrence River.

Florida Keys

Are you ready to try something new? Well we at Blue Ocean Divers are always looking for a better dive experience and we think we have found it. This year we will be going to the southern end of Key Largo and dive with Conch Republic and stay with Coconut Palms just around the corner. This trip will be a little more than in years gone by but the quality of accommodations is significantly better. That's the good news. The bad news is Coconut Palm is a small resort with 400 feet of sandy beach front on the bay side with only 11 rooms. I have booked 8 of these rooms so we most likely will not be able to grow this trip.

This trip will be August 17th through the 23rd. It will be our usual Florida itinerary. Arrive Sunday, dive 2 tank boat dives, Monday, Tuesday, Thursday & Friday. Leave for home on Saturday. The trip price includes double diver lodging with continental breakfast and diving, tanks and weights included. This year the cost is \$795 per person, double diver. A non-refundable deposit of \$200 will hold your spot. This trip is full. If you are interested we can see if we can find you lodging for the week.

Sunset Waters in Curacao

If you missed out on our 2008 Sunset Waters, Curacao you missed out on a very fun trip. I think the most boring job on the island is that of weatherman. Everyday, high 88 low 78 mostly sunny with a small chance of showers.

The diving was great! We saw all the usual fish with lots of eels, file fish, puffer fish, drum fish, nudibranchs and sea horses. I had more than one diver tell me that the house reef was the best dive site on the island. Not that any of them were wanting, just that the house reef had so much to offer.

The food and service was its usual superior level. I found out that rabbit has lots of bones making it a little difficult to enjoy. We had lots of foods to pick from with made to order eggs in the morning, American or local dishes at lunch and dinner ranged from barbeque one night, steaks and seafood.

Our next trip back is booked for February 14-21, 2009. we are flying Delta Airlines from Philadelphia with a stop in Atlanta then on to Curacao. We will have 6 days of 2 tank boat dives and the usual unlimited shore diving. Meals and all standard beverages are included. Of course use of all non-motorized beach toys are there for your pleasure. We have multiple room options for this trip! Bringing a family? We have a selection of rooming options for everyone and every family. Get your non-refundable deposit of \$500.00 in now to make sure you share all the fun!

AquaCat Live aboard

Come and join us as we dive the Bahama waters of the Exumas from May 2nd through May 9th 2009 aboard the Aqua Cat liveaboard. The Aqua Cat is a 102' catamaran making this boat very calm and stable.

The Aqua Cat offers a leisurely liveaboard scuba diving and snorkeling adventure cruising from Nassau, Bahamas to the remote islands of the Exumas, and especially the Exuma Cays Land and Sea Park, the most pristine area in all the Bahamas. Imagine sinking your toes into sugar sand, diving among the lemon sharks and sting rays, or hiking the trails of pirates and bootleggers of years gone by. No crowds, no set itineraries, nothing to do but sit back, relax and choose from an incredible variety of liveaboard activities including scuba diving, snorkeling, kayaking, fishing, sunbathing, and island exploring. Photographers will find underwater life in the Exumas some of the most prolific and varied of any coral reef in the world. Aqua Cat enables you to scuba dive remote walls, wrecks, and coral reefs with sharks.

Our Aqua Cat adventure will include painted walls, friendly grouper, thrilling shark encounters, drift dives and mysterious blue holes. Don't miss out on the shark feed dive usually offered during your scuba diving liveaboard adventure vacation. You will experience truly virgin diving in the Exumas. For over 30 years, much of the northern Exumas has been a National Underwater Park. The park contains miles and miles of undersea gardens and reefs perfect for snorkeling with gin clear waters and lots of fish.

Join Blue Ocean Divers on this liveaboard dive experience for only \$2,395. This includes 8 days, 7 nights with 6 days of unlimited diving. Nitrox is available on the boat. All lodging, meals and beverages are also included. I have 6 cabins booked for 12 lucky divers. Don't delay in getting your \$500 deposit to hold your spot on this super trip!
